IMMIGRATION CONSULTANT

LIVE IT. LEARN IT.  
KNOW IT. DO IT.

Canadian, schools believe in holistic education. Many universities in Canada are acknowledged and recognised internationally and becoming ideal for international students.

The current educational strategy set by the Canadian Ministry of Education emphasizes the importance of increasing the number of international students. Under the plan, international students are encouraged to pursue jobs after graduation and stay in Canada for work opportunities.

Cities that tempt the most foreign students are Toronto, Montreal, Vancouver, and Quebec. These cities offers a variety of ventures, opportunitites and a great enticing enviornmrnt.

There are various programs offered in Canadian universities and colleges that cater to various academic disciplines. Some of these include engineering, healthcare, agriculture, and management. In addition, the lenient PR laws of the country attract students from across the world.

Canada's universities have reputation and recognition globally. In fact, many of them challenges against international universities those are in UK and US.

# Why you should study in Canada

## 1. English is everywhere

English and French are both official languages in Canada, you can easily speak and communicate in English. All universities offer English-taught degrees.

## 2. Many top-ranked universities in the world are in Canada

Universities of Canada have a long reputation in academic performance and high graduate employability rate. In fact, many institutions compete with leading universities from the U.S. and the UK.

## 3. Welcome a multi-cultural environment

Canada is one of the most ethnically and linguistically diverse countries in the world. In Canada, you will be surrounded by a large multicultural environment, both in classrooms, as well as in the society. This creates a great advantage for any international student.

## 4. Live in a safe country with a high quality of life

Canada is one of the safest countries in the world, with a low crime rate. Canada was ranked the second country in the world with the highest quality of life.

## 5. Universities focus on research and discoveries

Most study programmes delivered by Canadian universities focus a lot on research and students get to engage in intriguing experiments and projects, meant to provide them a complete study experience, based on innovation and forward thinking.
